### **RS Introduces Canon into Product Line Up**

RS is excited to announce that we are partnering with Canon, USA. The addition of Canon to our product line allows us to offer our clients options from the top two leaders in the field. RS carries HP the world leader in printer based and multifunction devices; and now proudly includes Canon the world leader in multifunctional copier based devices.

This inclusion perpetuates our commitment to providing our customers yet again with the most state of the art technologies as it relates to managing their overall print environment.

About us:

Our managed print services division works with clients to understand and control all costs associated with their document reproduction. Our proprietary PagePilot™ program is a turn-key print optimization process that is custom designed to control cost and improve productivity.

Osupplies.com™ is our online supply store designed to provide clients with the lowest prices on all of their office products. Our site is uniquely designed to shop and compare against other major office suppliers – proving that our price is the lowest price offered
